

PHOENIX BACKUP AS A SERVICE (BaaS) POWERED BY VEEAM TECHNOLOGY

Phoenix’s fully managed, Cloud agnostic Veeam Backup service protects your physical, virtual and file-level workloads for a simple monthly fee.

Our platform agnostic solution enables you to leverage our private Cloud or market leading Public Cloud platforms including Amazon Web Services and Microsoft Azure.

Our core services include:

V-Connect

Enables you to create a quick and secure Cloud-based Backup with a dedicated repository.

V-Managed

Provides a fully 24/7 managed Backup service within the Cloud for those who require absolute peace of mind.

PHOENIX BACKUP AS A SERVICE (BaaS) POWERED BY VEEAM TECHNOLOGY

Benefits

An OPEX-Based Model

BaaS makes it easy to efficiently scale-up your Backup services without being restrained by CAPEX demands

Incremental Backups

Our BaaS solutions eliminates the need for periodic full backs by creating forever incremental Backups that save time and storage

Scale-Out Backup

Veeam's new Scale-Out Backup Repository feature allows you to deploy and manage multiple storage repositories reliably and efficiently

Built-In Delegation

Delegate Backup and recovery tasks securely to other departments and teams within your organisation through Veeam's built-in tools

24/7/365 Support

Our expert engineers and data recovery specialists are on hand 24/7/365 for all your Backup needs and requirements

Centralised Deployment

Manage your virtualised and physical server Backups from a single interface – with support for VMware, Hyper-V, Veeam Agent for Linux and Windows

Why Choose Us

Market-leading Solution

Veeam's market leading built-in dedupe and compression makes the most efficient use of your storage and BaaS Quotas

Industry Compliance

We deliver standard reporting that makes it easy to understand and monitor your Backup jobs and provide a variety of Geolocation and Data Protection Reports

Trusted Partner

Our expert engineers and data recovery specialists are trusted by world-leading enterprises and have a track record of success

Complete Protection

Our strict SLAs mean you can trust us to deliver each and every time with consistent performance and optimisation

Fully Outsourced Solution

You can rely on us to set up, monitor and manage your Backup with regular reporting and full visibility into your operations
