

CLARITY MICROSOFT 365 COST MANAGEMENT AND OPTIMISATION SERVICE

Accelerate adoption of Microsoft 365 and significantly reduce your costs by up to 30%

Microsoft 365 (M365) is designed to enhance productivity and drive innovation through the delivery of intelligent applications and collaborative services. However, managing licence assignment, end-user adoption, and controlling costs can be complex and challenging and can result in your organisation losing the financial advantage and efficiencies that the suite of applications promises to deliver.

What is Microsoft 365 Cost Management and Optimisation?

Our Clarity Microsoft 365 Cost Management and Optimisation Service enables your organisation to gain full visibility, management, and control of your organisation's Microsoft 365 estate. This supports your organisation to maximise its Microsoft investment and ensure that it is transforming and empowering every employee, from the office to front-line workers, with solutions that improve collaboration, productivity, and the user experience.

The service ensures that your organisation can quickly identify areas for improvement and provides outsourced or self-managed solutions that allow you to proactively address and optimise your M365 environment.

Clarity Microsoft 365 Cost Management and Optimisation Service delivers the following outcomes:

- Cost management
- Licence assignment
- User profiling
- Cost optimisation
- Adoption
- Security

THE BENEFITS OF OUR CLARITY MICROSOFT 365 COST MANAGEMENT AND OPTIMISATION SERVICE

Gain access to powerful BI dashboards that detail in-depth cost and usage analytics (based on service level)

Proactively manage all Microsoft 365 licence renewals, ensuring that all Microsoft contracts and investments are continually reviewed and right sized

Continue to validate and account for all Microsoft 365-based spend, eliminating underutilised, abandoned, and inactive licence costs

Continue to drive end user adoption, and guarantee increased productivity, increased end user satisfaction, and a greater return on investments

Continue to assess your current security posture and identify potential improvements across all your Microsoft 365 workloads

MAXIMISE YOUR M365 INVESTMENT NOW.

Arrange a call with one of our SAM specialists to discover how the Clarity Microsoft 365 Cost Management and Optimisation Service supports you to get the most out of your M365 estate.
